A

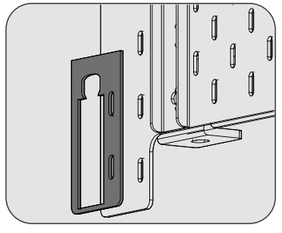

Before Installation

- Make sure the desk has been fully assembled.
- Ensure all required hardware is available.

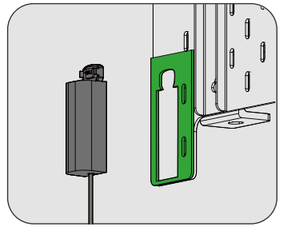

Step 1

Remove the protective film from the adhesive tape on the first RGB Light section.

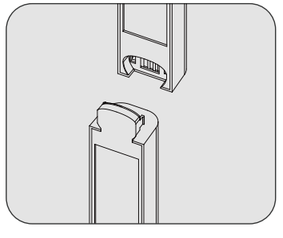

Step 2

Align the positioning card with the three sides of the Pegboard opening.

Step 3

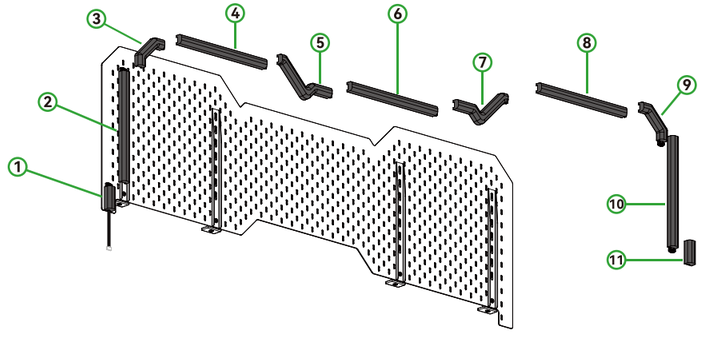

Place the first RGB Light section at the center position marked on the positioning guide. Press firmly to secure the adhesive, then remove the positioning guide.

Step 4

Remove the protective film from the adhesive tape on the second RGB Light section. Align it with the connector end of the previous section, then press down until both snap joints are fully locked.

B

Step 5

Install the remaining RGB Light sections in the numbered order shown in the diagram. Before attaching each section, remove the protective film from the adhesive tape, align it with the previous section, and press down until the snap joints are fully locked.

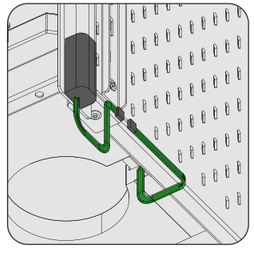

First Section / Cable Input End

Final Section

Step 6

Connect the power plug in the correct orientation as shown.

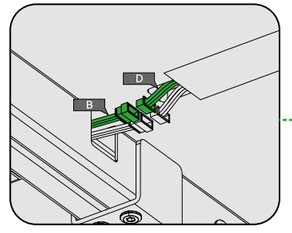

Step 7

After installation, move the desk to its final position. Keep the rear pegboard at least 10 cm (4 in) away from the wall to prevent friction or damage.

Tip: Press firmly after attaching each RGB Light section to ensure the adhesive is secure.

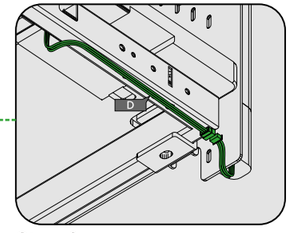

C

Right L-Shape Desk RGB Light Installation Steps

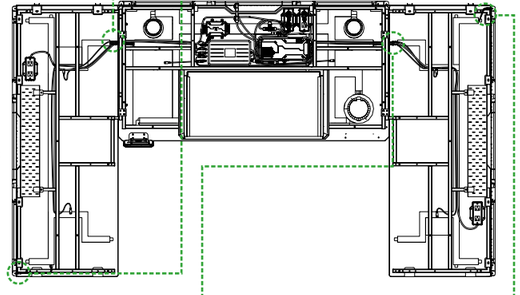

Step 1

Connect the B cable from the main desk to the D cable of the right extension desk.

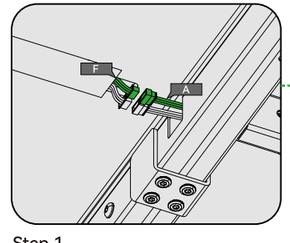

Step 2

Connect the D cable of the right extension desk to the RGB light connector port.

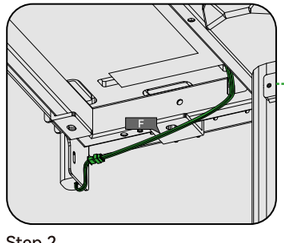

Note:

For U-Shape Desk installation, connect both the left and right extension desk RGB Light cables as shown.

Step 1

Connect the A cable from the main desk to the F cable of the left extension desk.

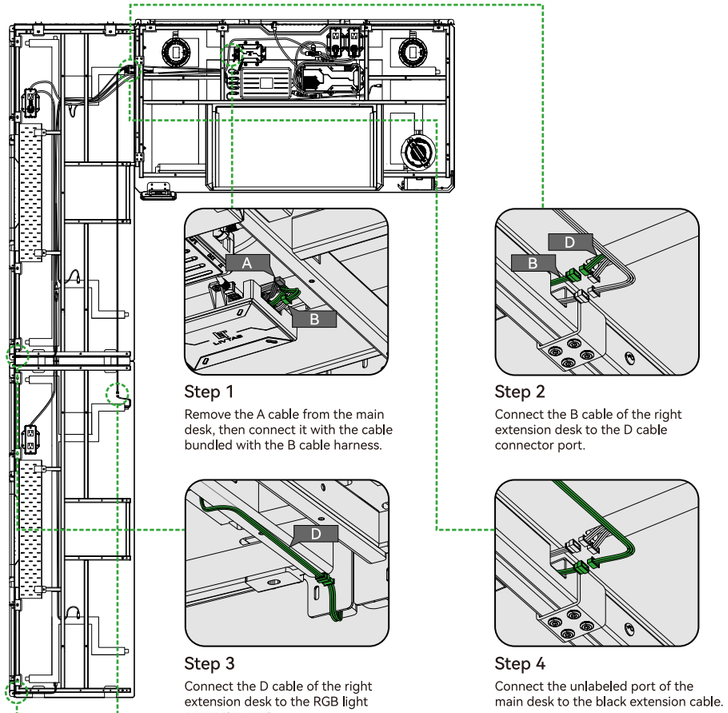

Step 2

Connect the F cable of the left extension desk to the RGB light connector port.

Left L-Shape Desk RGB Light Installation Steps

D Right L-Shape Desk RGB Light Installation Steps

Step 1
Remove the A cable from the main desk, then connect it with the cable bundled with the B cable harness.

Step 2
Connect the B cable of the right extension desk to the D cable connector port.

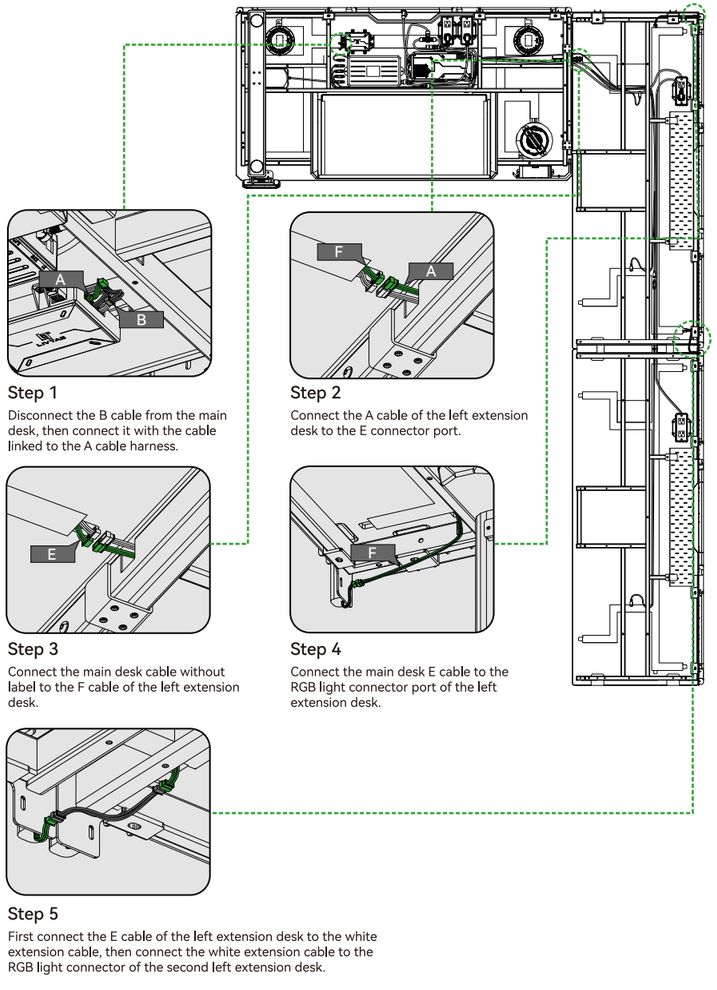

Step 3
Connect the D cable of the right extension desk to the RGB light connector port.

Step 4
Connect the unlabeled port of the main desk to the black extension cable.

Step 5
Connect the black extension cable to the D cable connector of the second right extension desk.

Step 6
Connect the D cable of the second right extension desk to the RGB light connector port.

E Left L-Shape Desk RGB Light Installation Steps

Step 1
Disconnect the B cable from the main desk, then connect it with the cable linked to the A cable harness.

Step 2
Connect the A cable of the left extension desk to the E connector port.

Step 3
Connect the main desk cable without label to the F cable of the left extension desk.

Step 4
Connect the main desk E cable to the RGB light connector port of the left extension desk.

Step 5
First connect the E cable of the left extension desk to the white extension cable, then connect the white extension cable to the RGB light connector of the second left extension desk.

Final Check

- All cables are properly connected.
- Ensure the accessory is firmly installed before use.

⚠ CAUTION

Connect the power cable only after installation is complete.

- After unpacking the product, confirm that all parts are included. If anything is missing, please contact customer support at **support@livtab.com.**
